20 Million
TREES a Year!

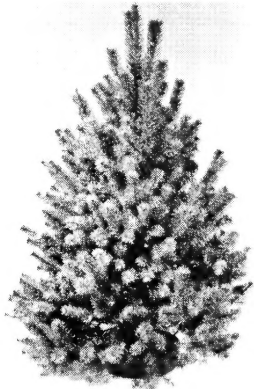

There Is A Difference—

Selected
Seed

—FOR—

Perfect
Trees

Musser Selects True-Strain Seed

All tree seed is not the same. If the parent tree has undesirable qualities, its seed will perpetuate those qualities. To be sure of the best obtainable seed, we send men all over the United States to seek out mature, hardy, disease-resistant parent trees with straight stems and foliage of rich color.

We import seed picked from selected stands of timber in Europe, which have been developed through generations to bring out desirable characteristics.

Such selectivity is costly—yes. But it puts meaning into the phrase, "Musser Trees Grow Best."

Musser Root Systems Are Superior

The young Musser tree with strong, extensively branched, but compact, root system is the tree that survives. Good heredity characteristics through selection of seed is the basic requirement—careful handling and scientific culture in the nursery is also essential. The many additional feeder roots in Musser Cultured Tree Stock enable the young tree to extract the most food from the soil of your planting site. Musser Tree Stock is superior. It will survive where inferior planting stock will not.

Transplanting Makes More Roots

Stock is transplanted in our nurseries from one to four or more times. Each time, the longer, more easily damaged roots are reduced so that more small feeder roots develop near the stem. The more feeder roots, the more quickly the tree is established on your land. Also, the resulting compact mass of small feeder roots makes the tree easier to plant.

Each year, in the spring and summer, we transplant hundreds of thousands of seedlings to build more feeder roots. Results prove extra cost is repaid many times over.

Cuttings and Grafts Guarantee Qualities

To reproduce exact qualities desired in stock of a certain species, Musser Forests propagates by cuttings or grafts.

ROOTED CUTTINGS are small branches from perfect specimen trees, rooted in our propagation houses under controlled conditions of fertility, moisture and temperature. In cases where a species will not root from cuttings . . .

GRAFTS are produced by introducing cuttings of the desired quality on to hardy root stock of a related species. Grafting is a complicated cultural process covering some months.

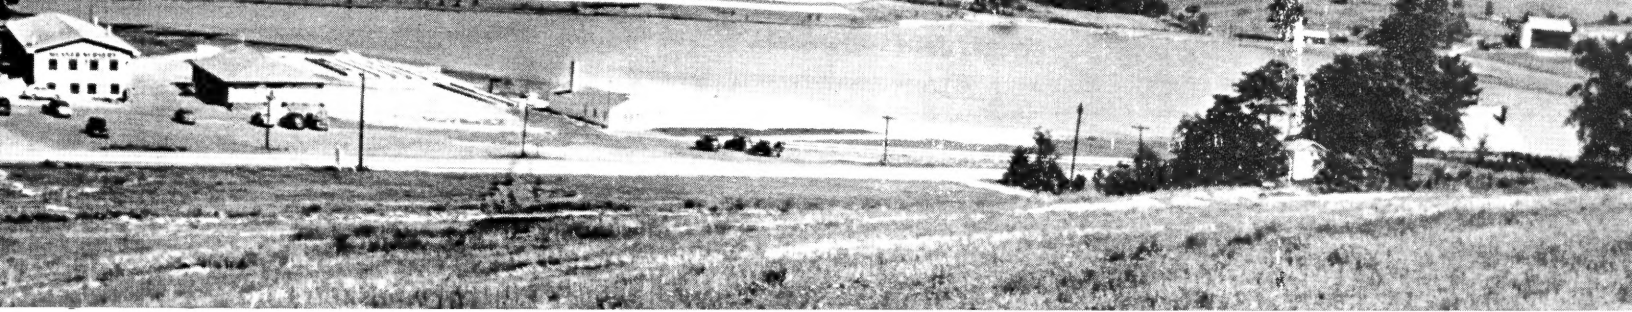

Thousands of Seedlings are transplanted each year for sturdier root structure. The tremendous volume of the four Musser nurseries means low prices.

Acres of sturdy, well-rooted, strong-stemmed Musser Stock shown below are typical of the superiority of Musser Cultured Stock. Abundant water insures vigorous development during growing season. "There IS a difference."

COVER: Fred Musser discusses Musser Special Strain Seedlings with Fred, Jr., with part of the "20 Million" in the background.

Musser Trees Grow BEST!

Musser Headquarters—Part of 660 acres growing nursery stock is shown above: office, packing buildings, propagating houses, 35-acre pond, and millions of Seedlings, Transplants, Rooted Cuttings and Grafted Specialties.

Plant Quality MUSSER Trees

- 1** Make a \$1000 investment to plant a 50 acre tract worth \$15,000 for timber in about 30 years (\$10 per acre each year).
- 2** Bring cash profits by thinning Christmas Trees from a forest plantation.
- 3** Musser Trees have no restrictions as to selling for Christmas Trees or lumber.
- 4** They are a cash crop requiring no cultivation or extra care.
- 5** Plantation Trees are always at the top of the Christmas tree market.
- 6** Trees will increase the value of a property if it is being held for resale.
- 7** A Tree Plantation is an excellent savings account with a high rate of interest.
- 8** Trees will pay for a college education for your children if started early and properly managed.
- 9** Bring idle agriculturally useless land into production profitably.
- 10** Improve soil by retaining moisture, preventing erosion, and restoring fertility.

Buy the Best—
MUSSER TREES

Propagating House Culture of Rooted Cuttings to guarantee true qualities.

Musser Seedlings and Transplants grow readily on abandoned farm land; Christmas tree harvest in 6 to 10 years. Some trees may be left for timber.

Thousands visit our Retail Sales Yard each year to personally select nursery stock. Such a visit is a highlight of any trip through our area.

Musser ORNAMENTALS

Well branched, heavy stems. Will develop rapidly into beautiful evergreen foundation plantings, or valuable specimens.

WHITE PINE

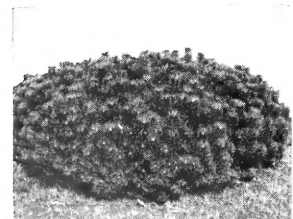

SCOTCH PINE

RED PINE

AUSTRIAN PINE

MUGHO PINE, SHEARED

WHITE PINE

Very adaptable as to soil. Will do better on heavy wet soils than the other Pines. Very soft, silver-green needles, 2½ to 5 in. long. Shear for compact form. Excellent, fast-growing windbreak. **Per 100**

5-yr. Heavy Trans. 10-16 in. \$20.00

Not packed in ball of peat moss. Sold in lots of 10 at the 100 rate.

See center pages for Seedling and Transplant Stock

SCOTCH PINE

One of the most rapid-growing species. Especially good when sheared. Musser's Special Strain Scotch Pine retains its blue-green or silvery green color in cold weather. Needles 1½ to 2½ in. long, curled. **Each**

***6-yr. Twice Trans. 16-20 in. \$1.00**

***7-yr. Twice Trans. 18-24 in. 1.50**

*Sold with a lot of 5 or more. Packed with ball of peat moss.

AMERICAN RED PINE

A rapid-growing, bushy tree; very popular. Dark green, soft needles 4 to 7 in. long. Requires sun. Excellent for back-ground or fast-growing windbreak. **Each**

6-yr. Twice Trans. 16-18 in. \$0.75

Not packed in ball of peat moss.

***7-yr. Twice Trans. 18-24 in. 1.00**

Packed in ball of peat moss.

***8-yr. Twice Trans. 24-32 in. 1.50**

*Sold with a lot of 5 or more. Packed in ball of peat moss.

JUNIPER VIRGINIANA (Redcedar)

Popular—grows everywhere. Very hardy, fast growing, tall, narrow, compact. Spring foliage bright green; fall, brownish red. Easily trimmed to any shape. Produces berries. **Each**

***Twice Trans. 24-36 in. \$2.00**

*Sold with a lot of 5 or more.

Packed with ball of peat moss.

BALSAM FIR

Fine fragrance. Grown best in the northern states, in a cool moist climate.

Lots of 5 or more, **Each**

***7-yr. Twice Trans. 12-18 in. \$1.00**

***8-yr. Twice Trans. 18-24 in. 1.50**

*Sold with a lot of 5 or more.

Packed with ball of peat moss.

FRASER FIR

Often called Southern Balsam Fir. Shiny green foliage is lighter on under side. Has delightful fragrance and attractive purplish cones. Hardy. Good Ornamental or Christmas Tree. **Each**

***7-yr. Twice Trans. 10-12 in. \$1.00**

*Sold with a lot of 5 or more.

Packed with ball of peat moss.

MUGHO PINE (True Dwarf)

Excellent for dwarf hedge. **Per 100**

5-yr. Trans. 5-9 in. \$25.00

Heavy, branched.

Not packed in ball of peat moss.

Sold in lots of 10 at the 100 rate.

***7-yr. Twice Trans. 6-10 in. (Spread) \$0.80**

Nicely branched, once sheared.

*Sold with a lot of 5 or more.

Not packed in ball of peat moss.

CANADIAN HEMLOCK

Lacy, graceful growing habit. One of the best plants for hedges, since it can be sheared to any size—can be kept low for years, or permitted to grow into a high hedge or windbreak. **Per 100**

3-yr. Seedlings. 8-14 in. \$20.00

Not packed in ball of peat moss.

Sold in lots of 10 at the 100 rate.

4-yr. Trans. 8-12 in. 40.00

Not packed in ball of peat moss.

Sold in lots of 10 at the 100 rate.

Each

***7-yr. Twice Trans. 15-20 in. \$1.75**

*Sold with a lot of 5 or more.

Packed with ball of peat moss.

WHITE FLOWERING DOGWOOD

One of the most beautiful of all spring-flowering trees. Lovely four-petaled white blossoms are borne on spreading branches early in spring. Leaves turn brilliant red in fall. Valuable when used in lawn border or as specimen plants. Unsurpassed when used for naturalizing effect. Grows 15 to 20 feet tall. **Per 100**

2-yr. Seedlings 16-24 in. \$15.00

Sold in lots of 10 or more at 100 rate.

Each

***Transplants 2-3 ft. \$2.75**

Nicely branched.

***Transplants 3-4 ft. 3.25**

Nicely branched.

*Packed in ball of peat moss.

PINK FLOWERING DOGWOOD

(Grafted Trees)

See Page 22 for complete description

Per 100

12-18 in. \$150.00

18-24 in. 200.00

Lots of 5 at the 100 rate. **Each**

2-3 ft. \$3.95

WHITE BIRCH

One of the most beautiful novelties in shade trees. When mature, bark turns creamy white; leaves are fine-cut, light green. Plant several in each location for a picturesque clump. **Per 100**

Seedlings 16-24 in. \$10.00

Each

Double Stem Trees 5-7 ft. \$5.00

3 for \$12.50

Clump Birch

3 to 4 stems to each tree

3-4 ft. 3.75

3 for \$9.75

NORWAY SPRUCE

Most rapid-growing and popular Spruce. Should be sheared when making rapid growth to insure bushy trees. Needles about 1 inch long. **Each**

***7-yr. Twice Trans. 12-18 in. \$1.00**

Bushy, well branched.

***8-yr. Twice Trans. 18-24 in. 1.50**

Bushy, well branched.

***9-yr. 3 Time Trans. 24-32 in. 2.50**

All above for immediate ornamentals.

*Sold with a lot of 5 or more.

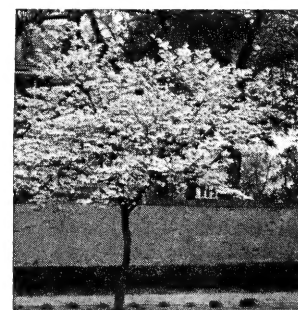

Packed with ball of peat moss.

Visit Our Nurseries

You will enjoy a visit to our nurseries, where 660 acres are devoted to the growing of superior planting stock. Many unusual and desirable items of larger nursery stock not listed in this catalog are available with roots balled in original soil, secured in burlap. Though not practical to ship, such items may be picked up in your car and planted on your site with complete success.

Have the fun and satisfaction of being your own Landscape Gardener!

SPECIAL No. 7

EVERGREEN HEDGE

3-year Seedling AMERICAN ARBORVITAE

Start now with these 8 to 14-inch sturdy seedlings, and have an outstandingly beautiful evergreen hedge. Shear it at any desired shape and height.

50 POSTPAID for \$5.50

SPECIAL No. 11

RED BARBERRY HEDGE

4-year heavy plants, 12-18 in. 50 feet of brilliant colorful hedge. Very hardy, shears well to make a dense hedge. Plant 12 to 15 inches apart.

50 POSTPAID at Planting Time for \$8.50

SPECIAL No. 21

DWARF ROSE HEDGE

Rosa Rugosa

ALMOST EVERBLOOMING. For small property hedge—will not grow out of control. (Not to be confused with *Rosa Multiflora*, which is field hedge.) Red and white mixed flowers, 2½ to 3½ inches in diameter. One of the most attractive features is the cluster of brick-red fruit in the fall. Withstands shearing very well and is often used as a formal hedge.

25 12-18 in. plants, POSTPAID at Planting Time for \$6.00

SPECIAL No. 6

LIVING FENCE

Rosa Multiflora. Heavy 3MM. Stock

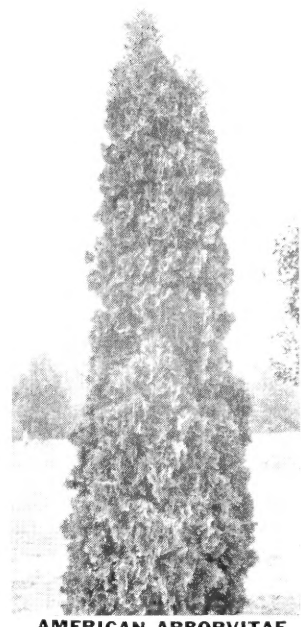

10-18 in. Dense, thorny fence. Prune to any height. Clusters of pinkish-white wild roses in June, bright red berries follow. Fast growing.

50 POSTPAID at Planting Time for \$6.00

Tall columnar tree, ideal for use as screen or wind-	12-18"	7.00	35.00
break when planted 2 to 3 feet apart. Seedling	18-24"	10.00	50.00
stock, variety described next page. Photo at right.			
TULIP POPLAR	18-30"	10.00	50.00
One of the largest, most valuable deciduous trees for timber and			
ornamentals. Glossy, fiddle-shaped leaves. Large greenish-			
yellow and orange flowers. Very symmetrical. Photo at top left.			
WHITE FLOWERING DOGWOOD	5- 8"	9.00	45.00
Seedling stock of variety described on page 22.	16-24"	15.00	75.00
May be ordered in lots of 10 at the 100 rate.			
PINK FLOWERING DOGWOOD	12-18"	150.00	xxxx
Seedling stock of variety described on page 22.	18-24"	200.00	xxxx
May be ordered in lots of 10 at the 100 rate.			
HONEY LOCUST (Thornless)	6-12"	6.00	30.00
Tall deciduous tree for shade or lawn specimen. Small, fragrant,			
greenish flowers in early summer are followed by large, glossy			
brown ornamental pods in the fall. Attracts bees. Photo at right.			
BLACK LOCUST	6-12"	4.00	20.00
Thrives in any soil. Fragrant clusters of white pea-like blossoms			
in spring, small brown seed pods in fall. Attracts bees.			
WHITE OAK	6-12"	16.00	80.00
Monarch of deciduous trees. Splendid for lawn or street use.			
Disease resistant. Dark red autumn coloring.			
RED OAK	10-18"	15.00	75.00
Northern, hardy, rapid-growing timber and shade	18-24"	25.00	xxxx
tree. Dark red fall foliage.			
PIN OAK	8-14"	20.00	xxxx
See description on next page.	24-36"	60.00	xxxx
Lots of 10 at the 100 rate.	36-48"	100.00	xxxx
CHINESE ELM	6-12"	4.00	20.00
Seedlings of variety described on next page. Widely	12-18"	6.00	30.00
planted for fast-growing hedges.	18-24"	9.00	45.00
AMERICAN ELM	6-12"	4.00	20.00
One of the best loved of our native American trees. Straight			
trunk, branching into graceful vase-shaped head.			
BLACK WALNUT	12-18"	14.00	70.00
Seedling stock of variety described on next page. Photo at left.			
WHITE ASH or GREEN ASH	6-12"	5.00	25.00
Easy to grow. Tall oval shape permits grass to grow beneath its			
branches. Brilliant yellow autumn foliage.			
NORWAY MAPLE	6-10"	8.00	40.00

Sorry, no C.O.D.'s. All stock on this page must be paid in full with order.
Shipped Express Charges Collect.

	Actual Size	Each	Per 3
PIN OAK	4-5 ft.	\$3.75	\$9.75
Forms a symmetrical, pyramidal head with long pendulous branches. The foliage is deeply cut and assumes a brilliant red autumn color. Because of rapid growth, it is much used for avenues and lawn specimens.			
WHITE BIRCH			
Double stem trees.....	5-7 ft.	5.00	12.50
Clump trees, 3 to 4 stems.....	3-4 ft.	3.75	9.75
One of the most beautiful novelties in shade trees. When mature, bark is white and the leaves are a fine light green. Plant several in each location for a rare and picturesque clump, winning the admiration of your friends and neighbors.			
CHINESE CHESTNUT (Blight resistant)			
Whips to lightly branched.....	3-5 ft.	2.00	5.00
Heavy, well-branched trees.....	3-4 ft.	3.75	9.75
Will bear large, sweet, delicious nuts 2 years after planting. Very fast growing. Valuable as ornamental and for shade, as well as for fruit. Plant 2 or more for pollination. Grows 30 to 40 feet tall. See photo on preceding page.			
WEeping Willow, Wisconsin	6-8 ft.	3.75	9.75
Very rapid-growing tree with graceful drooping branches. Will succeed in any location but prefers moist soil. Especially effective near pools or river banks, along drives or as specimen plants. Frequent cutting back gives a thicker growth of bright green twigs. Grows 25 to 30 feet tall. Illustrated at left.			
NORWAY MAPLE	6-8 ft.	5.50	14.75
One of the best trees for street planting or for lawn specimens where good form and shade are needed. Its dense leaves are rich green and are held on tree about two weeks longer than other Maples. Grows 50 to 60 feet tall. See photo at left.			
SILVER MAPLE	5-6 ft.	3.75	9.75
Most rapid grower of all Maples. A large, spreading tree which, at maturity, has a height of 60 to 70 feet. A cut leaf with a silvery cast, and also a silvery bark. Sap is good for sugar making.			
SUGAR MAPLE (Hard Maple)	6-8 ft.	5.50	15.75
Brilliant scarlet, orange and yellow foliage in fall. Mature trees are the source of delicious maple sugar from sap in spring. Handsome form. Photo page 12.			
CRIMSON KING MAPLE	5-6 ft.	6.50	18.50
You will want to be one of the first to own this new tree. It is a beautiful form of Schwedler Maple, originating in Europe. Like the Schwedler, it develops a rounded, compact top of unusual symmetry, but differs in having foliage of deep purple-crimson all through the growing months.			
CUT-LEAF WEeping BIRCH (Silver Birch)	4-5 ft.	4.50	12.75
Graceful white-barked tree with delicate drooping branches. One of the few shade trees under which grass will grow. The white bark, which develops a year or two after planting, is beautiful in all seasons. Grows 20 to 30 feet tall.			
LOMBARDY POPLAR	5-6 ft.	1.50	4.00
Tall columnar tree, ideal for use as screen or windbreak. Thrives in wide range of soil and climatic conditions. Grows unusually fast; requires no pruning. Grows 60 to 80 feet. Photograph is shown on the preceding page.			
CHINESE ELM	6-8 ft.	4.25	11.50
For quick shade. A very rapid grower with small, dense foliage. Excellent for tall hedge or windbreak. Stands intense cold and extreme heat remarkably well. Excellent shade in 5 short years. Grows 30 to 40 feet. See photo above.			
MOUNTAIN ASH	5-6 ft.	5.50	14.75
One of the most ornamental of all trees. Bears large clusters of BRIGHT ORANGE-RED BERRIES from midsummer until late fall. Grows 20 to 30 feet tall. Photo at left.			
MORAINE LOCUST (Trade-marked)	5-6 ft.	6.50	18.50
(Plant Pat. 836.) This is a vigorous, fast-growing, seedless tree, shaped much like American Elm, but not susceptible to disease. A clean tree with no ugly, dangerous thorns and no seed pods. The leaves are so fine that, when falling, they practically disappear. Thrives in spite of smoke and soot, on all kinds of soil. Hard wooded; bends but rarely breaks or splits.			
BLACK WALNUT	3-4 ft.	3.75	9.75
Rich flavorful kernels. Does well in fertile, well-drained soil. Very hardy. Grows almost anywhere in the country. Produces annually large crops of nuts with rich, oily kernels of fine flavor. Fine for desserts, nut bread and confections. Tree grows 25 to 40 feet high; fast growing and long lived. Photo page 12.

5-yr. Transplants.....(3-2)	5-9"	25.00	xxxx

Heavy stock.

7-yr. Twice Transplants .. (Spread)	6-10"	80.00	xxxx
Nicely branched, once sheared.			

SHIPPING SEASON

will begin about March 15, weather permitting, and continue until June 1. Orders will be filled as rapidly as possible from then on. All stock shipped in a dormant condition and may be safely transplanted in any part of the country, regardless of your season.

PARTIAL SHIPMENTS

It may be necessary to ship Roses, Berries, Fruit, Flowering and Shade Trees at a time different from other listed stock. You may receive several shipments before your order is completed. This notice is to save you unnecessary correspondence.

The figures 2-0, 2-1, 2-2-1 indicate the number of years the trees have been in the seed beds and the transplant beds. Thus the sum of all figures is the total age of the tree.

Number of Trees Required per acre

3 x 3	4,840
4 x 4	2,722
5 x 5	1,742

For different spacings

For Christmas Tree planting, estimate 2000 trees per acre.

MUSSER EXCLUSIVE NORWAY SPRUCE

FAST GROWING

Grown from seed collected by our own men from selected trees. Exceptionally fast growing, straight-stemmed stock makes this strain especially desirable for Christmas trees, Ornamentals, and timber.

2-yr. Seedlings.....(2-0)	5-10"	\$7.00	\$35.00
---------------------------	-------	--------	---------

3-yr. Seedlings.....(3-0)	8-14"	10.00	50.00
3-yr. Transplants.....(2-1)	6-12"	13.00	65.00
5-yr. Transplants.....(3-2)	8-12"	30.00	150.00
Heavy stems.			

NORWAY SPRUCE

2-yr. Seedlings.....(2-0)	2-4"	3.00	15.00
2-yr. Seedlings.....(2-0)	3-6"	5.00	25.00
3-yr. Seedlings.....(3-0)	5-10"	7.00	35.00
4-yr. Transplants.....(3-1)	6-12"	15.00	75.00
*7-yr. Twice Transplants.....12-18"	1.00 EACH

5-yr. Transplants.....(3-2)	10-16"	35.00	xxxx
*7-yr. Twice Transplants.....	12-18"	1.00 EACH	
*8-yr. Twice Transplants.....	18-24"	1.50 EACH	

*Sold with a lot of 5 or more. Individually packed with ball of peat moss. This is field grown, well branched for an early Ornamental.

DOUGLAS FIR

Hardy Rocky Mountain type. Superior Ornamental and Christmas Tree.

2-yr. Seedlings.....(2-0)	3-6"	5.00	25.00
3-yr. Seedlings.....(3-0)	4-8"	7.00	35.00
3-yr. Seedlings.....(3-0)	8-12"	10.00	50.00

Root pruned, with one year's new growth—makes semi-transplant.

3-yr. Transplants.....(2-1)	4-8"	15.00	75.00
-----------------------------	------	-------	-------

CONCOLOR FIR

Excellent Ornamental. Silver trunk and soft silver foliage. One of the best Christmas Trees. Holds needles best of any short-needed tree.

3-yr. Seedlings.....(3-0)	4-8"	14.00	70.00
3-yr. Seedlings.....(3-0)	6-12"	18.00	90.00

Root pruned, with one year's new growth—makes semi-transplant. Excellent field planting stock.

VEITCHI FIR — Fine Ornamental

One of the slow-growing Firs. Needles are dark green, silver on the under side. An excellent plant for table-size Christmas Tree.

4-yr. Seedlings.....(4-0)	6-12"	14.00	70.00
---------------------------	-------	-------	-------

FRASER FIR

Often called Southern Balsam Fir. Shiny green foliage is lighter on under side. Has delightful fragrance and attractive purplish cones. Hardy. Good Ornamental or Christmas Tree.

*7-yr. Twice Transplants.....10-12" 1.00 EACH

*Sold with a lot of 5 or more. Individually packed with ball of peat moss.

BLUE ATLAS CEDAR — Cedrus Atlantica Glauca

Grown from seed. Silvery to light green needles, pyramidal form. Similar in appearance to Japanese Larch but does not lose its needles in fall.

2-yr. Seedlings.....(2-0)	6-12"	12.00	60.00
3-yr. Seedlings.....(3-0)	8-14"	16.00	80.00
3-yr. Seedlings.....(3-0)	12-20"	20.00	100.00

Root pruned, with one year's new growth—makes semi-transplant. Excellent field planting stock.

JAPANESE LARCH

Japanese and European Larch are not evergreen, but are included here because the fine, light green needles relate them to evergreens in appearance.

2-yr. Seedlings.....(2-0)	8-16"	10.00	xxxx
---------------------------	-------	-------	------

EUROPEAN LARCH

2-yr. Seedlings.....(2-0)	8-12"	7.00	35.00
---------------------------	-------	------	-------

HEDGES

Many types of nursery stock can be sheared and developed into beautiful, lasting hedges, since they can be kept at almost any height for years. Start with small plants and shear the new tender growth each year to the desired form and height.

MUGHO PINE—Dwarf Pine Hedge

		Per 100	Per 1000
4-yr. Seedlings	5-10 in.	\$10.00	\$50.00
5-yr. Transplants	5-9 in.	25.00	xxxx

CANADIAN HEMLOCK—One of the best evergreen hedges

Lacy, graceful growing habit. Can be sheared to any size.

3-yr. Seedlings	8-14 in.	20.00	100.00
4-yr. Transplants	8-12 in.	40.00	xxxx

WHITE PINE—Hedge or Windbreak

Fast growing, soft, dense hedge, easily adaptable to pruning—can be held to 5 to 8 ft. height for years.

3-yr. Seedlings	6-12 in.	8.00	40.00
5-yr. Transplants	10-16 in.	20.00	100.00

AMERICAN ARBORVITAE

3-yr. Seedlings	10-15 in.	15.00	75.00
5-yr. Transplants	12-16 in.	30.00	xxxx

PYRAMIDAL ARBORVITAE

2-yr. Transplants	12-16 in.	60.00	xxxx
-------------------	-----------	-------	------

JAPANESE YEW and JUNIPER (Pfitzer-Bluish)

Upright varieties for hedges. Can be kept sheared to any height for years. (See page 17.)

DWARF ROSE HEDGE—Rosa Rugosa

Almost Everblooming. For small property hedge—will not grow out of control. (Not to be confused with Rosa Multiflora, which is a field hedge.) Red and white mixed flowers, 2½ to 3½ inches in diameter. One of the most attractive features is the cluster of brick-red fruit in the fall. Withstands shearing very well and is often used as a formal hedge.

2-yr. Seedlings	18-24" Cut back to	12-18 in.	20.00	100.00
-----------------	--------------------	-----------	-------	--------

ROSA MULTIFLORA—Living Fence

Excellent wild life shelter and food.

Graded 3 mm. and up	10-18 in.	10.00	50.00
---------------------	-----------	-------	-------

AMUR RIVER PRIVET

Hardest and best for northeastern conditions. Will grow 10 feet but may be pruned to any height or form. Branches upright, foliage oval or oblong; made denser by pruning. Hardy, almost evergreen. Two or more branches each plant.

6-12 in.	12.00	60.00
12-18 in.	16.00	80.00
18-24 in.	20.00	100.00

BARBERRY—Red

Unusually good red color. Excellent hedge plants. Red leaves in summer, red berries in Fall-Winter.

3-yr. Seedlings	6-12 in.	11.00	55.00
4-yr. Seedlings	12-18 in.	16.00	80.00

BARBERRY—Green

3-yr. Seedlings	8-14 in.	10.00	50.00
-----------------	----------	-------	-------

SPACING FOR HEDGES. LOW Hedge, 8-10 in. apart, or double rows 12 in. apart—MEDIUM Hedge, 3 to 4 feet, plant 1 to 2 feet apart—TALL Hedge, plant 3 to 5 feet apart.

WINDBREAKS

For an ideal windbreak select a fast growing tree. White Pine, Austrian Pine and Scotch Pine are among the faster growing evergreens that can be used for this purpose. See page 14 for sizes and prices. Listed below are other suggested windbreaks.

NORWAY SPRUCE—Fast growing type

		Per 100	Per 1000
3-yr. Seedlings	8-14 in.	\$10.00	\$50.00
5-yr. Transplants	8-12 in.	30.00	150.00

AMERICAN RED PINE

Fast growing, sturdy windbreak especially fine where protection in height is needed.

3-yr. Seedling	8-12 in.	11.00	55.00
4-yr. Transplants	10-16 in.	25.00	125.00

CHINESE ELM

Rapid grower with small, dense foliage. Excellent for tall hedge or windbreak. Stands intense cold and extreme heat.

6-12 in.	4.00	20.00
12-18 in.	6.00	30.00
18-24 in.	9.00	45.00

LOMBARDY POPLAR

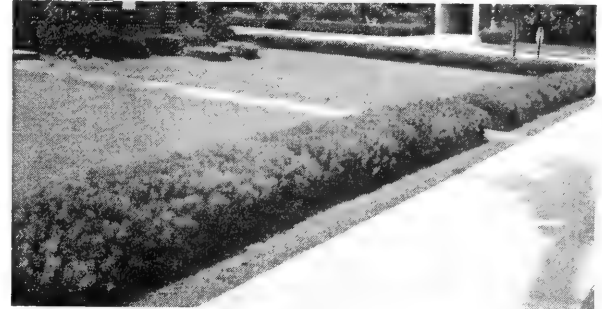

Ideal for use as screen or windbreak. Thrives in wide range of soil and climatic conditions. Grows unusually fast, requires no pruning.

6-12 in.	5.00	25.00
12-18 in.	7.00	35.00
18-24 in.	10.00	50.00

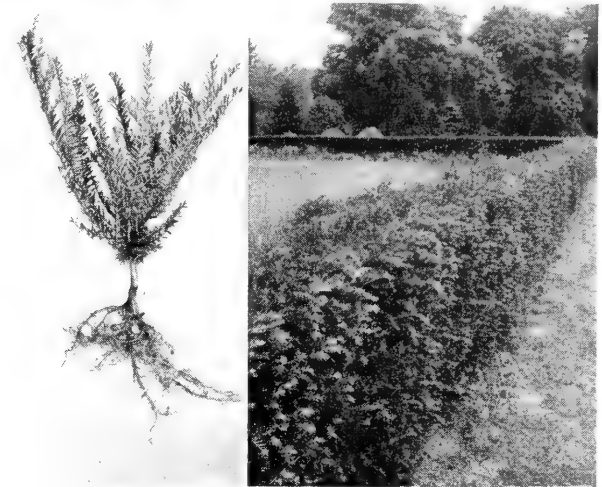

For best protection, plant double rows about 6 feet apart with offset spacing

HEDGES and WINDBREAKS

All orders will be shipped Express or Parcel Post, Charges Collect. 50 at the 100 rate.

MUGHO PINE makes a dense, spreading hedge, hardy, may be sheared to any form.

A fine, heavy branched, strongly rooted Musser JAPANESE YEW (Taxus) Transplant is shown at left. At right is shown a YEW HEDGE, notable for thick growth and lustrous dark green foliage.

The well-known BARBERRY always makes a satisfactory hedge, sheared or natural. Brilliant red berries in fall.

White Pine, Austrian Pine and Scotch Pine are among the faster growing evergreens for WINDBREAKS. Plant double rows about 6 feet apart with offset for spacing best protection.

Musser FLORIBUNDA ROSES

HARDY PENNSYLVANIA GROWN PLANTS. All Prices Postpaid

Floribundas are top-notch for borders and general mass planting. They grow taller and much bushier than Hybrid Teas, and the plants are simply covered with masses of bloom in one wave after another all summer long. They are most effective in beds or borders of one variety. Blooms are carried in clusters; some varieties are semi-double, some very double, and others are like perfect miniature Hybrid Teas. Floribundas are very easy to care for and will repay you many times over for the space they occupy.

BETTY PRIOR. Bright red buds open to single flowers of shell-pink, giving a glorious two-tone effect resembling pink dogwood. Prolific. Grows to 3 feet. Plant Pat. No. 340.

GOLDLOCKS. Rich golden yellow. Very double blooms, 3 inches across. Spreading, bushy; dark foliage. Plant Pat. No. 672.

IMPROVED LAFAYETTE. Semi-double blooms of deep glowing red, suffused crimson. Light fragrance. Vigorous, bushy plant about 2½ feet tall.

RED PINOCCHIO. Large, unfading clusters of rich carmine. Delightful perfume, like wild Roses. Bushy; very free flowering. Plant Pat. No. 812.

SUMMER SNOW. Pure white, very double, fragrant. Profuse bloomer. About 20 inches tall. Plant Pat. No. 416.

INDEPENDENCE. Very brilliant orange-scarlet flowers in clusters of six or more. Does not fade in the sun. Flowers are very large for a Floribunda. Grows 2½ to 3 feet tall, making a very compact bush. Plant Pat. No. 1036.

BABY BLAZE. Velvety cherry-red with a white eye at the center. Flowers are usually carried in large clusters. Richer in color in the fall. A splendid bushy plant for hedges, and very effective planted at the base of Blaze climber. Plant Pat. No. 1362.

MA PERKINS. Charming salmon-shell-pink flowers of Hybrid Tea form. Large, double, very fragrant. A bushy, vigorous plant 2½ to 3 feet tall, blooming freely. Plant Pat. No. 1143.

Heavy Flowering CLIMBERS

Climbers are excellent for mass decoration and splendid for backgrounds in the garden. They give the largest quantity of blooms for your money and have many uses. They can be trained against a fence, on a pillar or against a garage, and may be left to trail on a sloping bank. They need the least protection and attention of any group of Roses.

BLAZE. The everblooming Paul's Scarlet Climber. Bright scarlet color that holds well. Masses of large, well-shaped flowers on long stems. At its best when trained on a pillar or post. Blooms in midseason and repeats during the summer and fall.

\$1.50 each

3 for \$3.90

CITY OF YORK. White. Semi-double, 3-inch flowers. Hardy, strong grower. Blooms early. A new climber with a high rating.

\$1.75 each; 3 for \$4.65

CORAL DAWN. Sparkling coral-pink buds, opening slowly to long-lasting, 4-inch blooms. They are borne in clusters of three to twenty. Shiny dark green foliage sets off this wonderful color. Very easy to grow. Plant Pat. No. 1117.

\$2.50 each

3 for \$6.60

HIGH NOON. Intense, clear shining yellow. Medium-sized buds are borne on long, almost thornless stems, well clothed with light green, glossy foliage. Plant is luxuriant, bushy, many-stemmed and reaches a height of 8 feet. Produces many magnificent buds in the spring and additional bursts of bloom throughout the growing season. Needs some protection over the winter. Plant Pat. No. 704.

GLADIATOR. Light red or deep pink flowers, large and double like a Hybrid Tea. Strong, tall canes, reblooming continuously all summer. Delicate fragrance. Large, dark, healthy foliage. Grows 8 to 10 feet tall. Prop. Rights Reserved.

\$2.75 each

3 for \$7.20

See also pages 6 and 7 for PATENTED ROSES and HYBRID TEA ROSES

ROSE HEDGE ROSA MULTIFLORA THORNY TYPE

A Living Fence — A Winter Paradise for Wild Bird Life

ROSA MULTIFLORA is a tall growing, very thorny shrub, like the wild rose. Very hardy even in poor soil. Grows 2 to 3 feet in a single season to an ultimate height of 6 to 8 feet. Ideal for use as living fence for farm use—keeps in cattle, horses, SHEEP and GOATS. Makes fast growing ground cover. Pinkish white blossoms literally cover plant in June. These are followed by profusion of large red berries which attract game birds such as grouse, pheasant, and partridge, as well as smaller birds. During winter its arching branches provide protection from snow and cold as well as food for birds.

ROSA MULTIFLORA JAPONICA, thorny type, BEST QUALITY, EXTRA HEAVY, 3 millimeter (tops sheared, anything under 3 millimeter graded out).

MATURE AMERICAN HOLLY TREE

Flowering Trees

No C.O.D.'s. All stock on this page must be paid for in full with order. SHIPPED POSTPAID.

Each

PINK FLOWERING DOGWOOD 2 to 3 ft. \$3.95

Outstanding among ornamental trees. A profusion of showy, rose-colored blossoms in spring. Deep red foliage in fall. Grows 15 to 20 feet tall.

WHITE FLOWERING DOGWOOD 3 to 4 ft. 3.25

One of the most beautiful of all spring-flowering trees. Lovely four-petaled white blooms are borne on spreading branches early in spring. Leaves turn brilliant red in fall. Valuable when used in lawn border or as specimen plants. Unsurpassed for naturalizing effect. Grows 15 to 20 feet tall.

SAUCER MAGNOLIA 2 to 3 ft. 4.95

One of the most hardy of the Magnolias. Large, fragrant, rose-colored flowers cover the tree in early spring. Blooms when very small. Select a sheltered location so flower buds will not be injured by late frosts. Grows 10 to 15 feet tall. Blooming size.

BECHTEL'S DOUBLE FLOWERING CRAB 3 to 4 ft. 3.25

This choice Crab has endeared itself to many growers because of its spectacular display of large, double, rose-like flowers in spring which completely hide the branches. Blooms every year. In general it resembles an apple tree but is much smaller and finer branched. It grows in many locations and benefits from the same care given apple trees.

RED FLOWERING CRAB (*Malus floribunda*)

4 to 5 ft. 3.25

This small tree is round topped, with single carmine buds that change to pink and then white. Very heavy producer of small, blood-red fruit. Will stand severe winters and drought. Grows 15 to 20 feet.

TREE WISTERIA 3 to 4 ft. 5.75

No more lovely sight can be imagined than a Tree Wisteria in bloom. The purplish blue flowers completely cover the tree during May, transforming it into sheer beauty. In formal gardens it is indispensable. On the lawn it develops into beautiful specimens and lives for generations, increasing in beauty and dignity each successive season. Grafted, sure to bloom; balled in peat.

PINK FLOWERING CHERRY, Kwanzan 3 to 4 ft. 3.50

A low tree, growing to 6 feet. It makes a striking appearance on the lawn because of its unique form and is especially attractive when covered with showy clusters of dainty, rose-pink flowers before the leaves appear in the spring.

JUDAS TREE OR REDBUD 3 to 4 ft. 2.75

Fable tells us that when Judas betrayed Christ this tree immediately dripped all over with drops of blood, and that is the way it looks today when its blooms first come out. Later they turn to beautiful rosy purple. Blooms in April, before the leaves appear. 15 to 20 feet tall at maturity.

PURPLE FRINGE (Smoke Tree) 2 to 3 ft. 2.50

A tree much admired for the curious fringed or hair-like flowers that cover it in midsummer and give a mystic, cloudy effect to the whole tree. Handsome foliage adds its share of beauty. Likes plenty of sunshine and light, well-drained soil. Grows to a height of 10 to 12 feet, and its spreading habit requires considerable space.

TREE HYDRANGEA 3 to 4 ft. 3.50

Large pyramidal trusses of pure snow-white blooms appear in early August. As fall approaches they change to a luminous pink. At this stage they may be cut for all-winter dry bouquets. Flowers measure a foot long and 6 to 8 inches wide. A low-growing tree, standing not more than 4 to 6 feet in height.

PAUL'S SCARLET HAWTHORNE 4 to 5 ft. 3.75

Lovely flowering shrubs or small tree, growing about 15 feet tall, with spreading branches. The leaves are broad, the 3 to 5 lobes much toothed. The large clusters of double, brilliant rosy red flowers are produced in immense quantities. Fruits are scarlet. Well suited to the small yard, where a maple would be too large or create too much shade.

RED JAPANESE MAPLE 1 to 1½ ft. 6.50

Grows no taller than 8 to 10 feet. Foliage is startling crimson all summer. Makes an excellent specimen for yard or formal garden. Has best color when in full sun, but will tolerate moderate shade. Trees moss balled.

RIVER'S PURPLE-LEAVED BEECH 2 to 3 ft. 3.75

One of the most colorful and beautiful of all trees. It is easily grown and long-lived. Foliage is deep maroon in the spring, turning gradually to dark maroon-purple in summer and rich purple-brown in fall. Shapely in growth and rich in color, it will add that final touch of elegance to your lawn. Be sure to plant this variety. Grafted.

PINK FLOWERING DOGWOOD

TREE WISTERIA

FLOWERING CHERRY

RED JAPANESE MAPLE

\$1.00 Discount

Musser FLOWERING SHRUBS

2-Year, No. 1 Blooming Size, 1½ to 2 feet tall. Hardy, well-branched shrubs, shipped postpaid

GOLDEN KERRIA

CALYCANTHUS

**CALYCANTHUS
(Sweet-Scented Shrub)**

Many know it as the Carolina Allspice. The handsome, bronze-chocolate flowers produced in June are most entrancing, because of their spicy fragrance. Odd-looking pods develop, which are filled with brown, aromatic seeds. Glossy corrugated foliage adds to its unusual appearance. Grows 4 to 6 feet tall and spreads over an area equally broad.

**Double GOLDEN KERRIA
(Globe-Flower)**

Button-like, golden flowers cover the bush all summer. The very dense, "saw-tooth" foliage serves as an interesting background. In winter the light green, twiggy stems are very decorative. Grows 3 to 5 feet tall.

RED FLOWERING QUINCE

Covered with masses of semi-double, brilliant scarlet flowers in spring, even before the attractive, shiny green leaves appear. This 3 to 5-foot shrub is a "must" in landscaping.

BEAUTY-BUSH

A magnificent flowering shrub, growing to 7 feet. Upright-growing branches arch gracefully outward. During June they are weighted down with pink, bell-like flowers. Hardy; any soil.

DOUBLE MOCK-ORANGE

Pure white, sweet-scented, double, 2-in. flowers in May and June. Will tolerate smoke and other hard city conditions. Grows to an ultimate height of 4 to 6 feet.

RED FLOWERING QUINCE

SWEET HONEYSUCKLE

**SWEET HONEYSUCKLE
(Lonicera tatarica)**

Dainty, small, pink, trumpet-shaped flowers in May, followed by a profusion of red berries. Makes a large shrub, 6 to 8 feet in both height and width. Excellent for screening and specimen planting. Grows in the poorest soil.

**CARDINAL SHRUB
(Weigela Vaniceki)**

Blooms in spring, summer and fall. Plants set out in fall will bloom the next season. Grows 6 feet tall. Produces large, trumpet-shaped, rosy red flowers.

PEEGEE HYDRANGEA

A tall, stately shrub growing 4 feet in height. Branches bend over with giant, cone-shaped flowers which are white at first, then pink, and late in fall turn to copper and bronze. When cut, they last for weeks indoors.

FORSYTHIA, Spring Glory

A new Forsythia which bears masses of large yellow blooms. Canes grow erect, with gracefully drooping tips. Hardy in all sections; ordinary soil.

RED SPIRAEA

A choice, low-growing shrub, distinctive in style and form. Masses of showy, bright crimson flower clusters from July to frost. Ultimate height 18 to 24 inches.

DWARF FRUIT

Where space is limited, plant these dwarf trees. They do not spread more than 10 to 15 feet. Most varieties start producing fruit the first year after planting. Fruit is as large or larger than standard trees. PLANT TWO OR MORE VARIETIES FOR POLLINATION.

DWARF APPLE TREES (3 to 4 ft.)	Each	Per 3
Select, branched. Cortland, Red McIntosh, Double Red Delicious, Yellow Delicious. (Descriptions below)	\$4.00	\$11.25
DWARF PEAR TREES (3 to 4 ft.)	Each	Per 3
Bartlett, Clapp's Favorite. (Descriptions below)	\$4.00	\$11.25
SHIPPED PREPAID		

STANDARD APPLE

Your choice of those listed below. Plant two varieties for successful pollination (5 to 6 ft.).	1 to 6 each	7 or more each
	\$2.25	\$1.85

WRITE FOR SPECIAL QUANTITY PRICES

- **EARLY MCINTOSH.** Ripens in August. Bright red, early Apple. The flesh is white, tender and juicy, with fine flavor. Ideal dessert Apple.
- **STAYMAN'S WINESAP.** Comes into bearing young. A reliable cropper with medium to large-sized fruit. Slightly striped, coloring to dull red. Tree moderately vigorous.
- **YELLOW DELICIOUS.** Ripens October to March. Bright golden yellow fruit of excellent quality. Firm, crisp and very juicy. Finest yellow Apple. Bears young and heavily.
- **RED MCINTOSH.** Ripens in October. Very attractive red Apple of highest quality. Tender, juicy and refreshing. Hardy. Bears young and annually.
- **CORTLAND.** Ripens November to February. Large red fruit similar to McIntosh. Very hardy and desirable as a cross pollinator.
- **RED DELICIOUS.** Ripens December to February. Large, dark red Apple with crisp, fine-grained flesh. Excellent flavor.

STANDARD PEACH

Your choice of selected varieties listed below. Sturdy. (5 to 6 ft.).	1 to 6 each	7 or more each
	\$2.25	\$1.85

- **GOLDEN JUBILEE.** We recommend this comparatively new, widely planted Peach. It is a real money-maker. Resists excessive cold and is a sure cropper. Early, large freestone with yellow, tender, juicy, sweet flesh. Ideal for home use and roadside market. Ripens August 20 to 25.
- **HALE HAVEN.** Marvelous new Peach. Large, beautifully colored, yellow-fleshed fruit of the highest quality. Ripens 10 days to two weeks ahead of Elberta. Perfect freestone. Good shipper and a heavy bearer. Hardy. Extremely high color before ripening, allowing early picking for distant shipments. Include it in every planting. Ripens September 1 to 5.
- **EARLY ELBERTA.** An excellent new variation on the famous Elberta. A little rounder in shape and about 10 days earlier in ripening. Freestone. Ripens September 6 to 10.
- **RED HAVEN.** New, early Peach, thoroughly satisfactory in every way. It has the fine flavor of South Haven and Hale Haven. When other Peaches are still green, this one is bright red. Hardy; freestone. Self-pollinizing; prolific. Ripens August 20 to 25.

STANDARD PEAR

BARTLETT • CLAPP'S FAVORITE • SECKEL

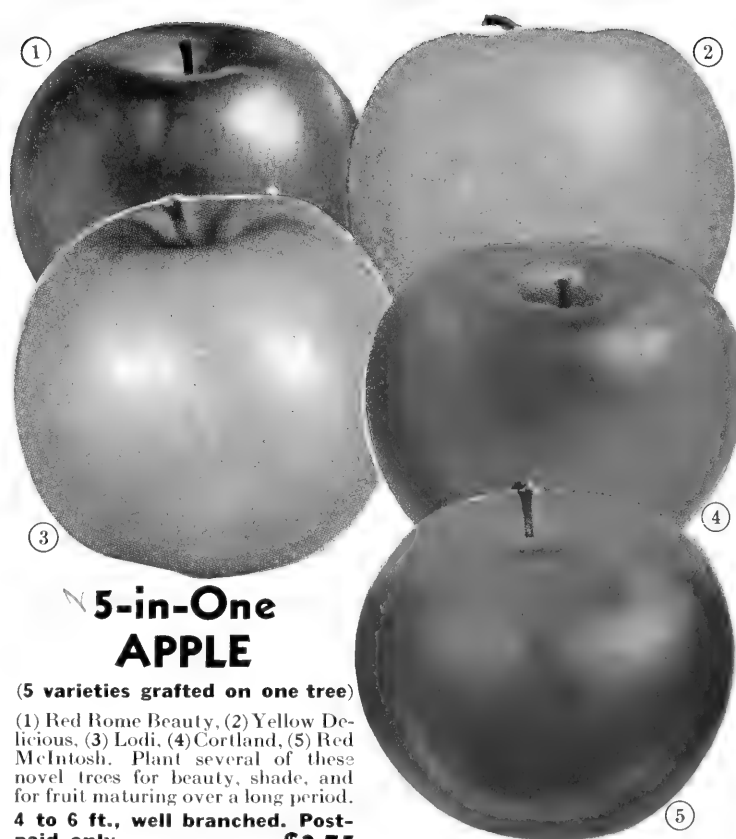

1 Each of These Three Best Varieties (4 to 5 ft.)
THREE varieties needed for pollination . . . Postpaid **3 for \$6.50**
\$2.25 each, postpaid; 7 or more, \$1.85 each, express collect

BARTLETT. Well known and adaptable to all situations. Large, golden yellow fruit with a reddish blush. Tender, juicy, with a delicious, musky aroma. The vigorous, long-lived trees attain large size. They start bearing when young and continue annually. Leading commercial and canning pear. Ripens September and October.

CLAPP'S FAVORITE. Precedes Bartlett, which it resembles in size, shape, color and flavor. The first Pear on the market. Large, pale lemon-yellow fruit with brown dots. Fine-textured, juicy, buttery flesh with a rich, sweet, delicate vinous flavor. Hardy and productive. Thrives where other varieties fail. Ripens August 15 to 20.

SECKEL. For eating fresh and pickling. Medium size; skin rich yellowish brown with deep brownish red cheek when fully ripe. Flesh fine grained, juicy, sweet. Resistant to blight; very productive and hardy. Plant in fertile soils. Ripens September and October.

If prepaid and Express Collect items are shipped together, entire shipment is Express Collect.

5-in-One APPLE

(5 varieties grafted on one tree)

(1) Red Rome Beauty, (2) Yellow Delicious, (3) Lodi, (4) Cortland, (5) Red McIntosh. Plant several of these novel trees for beauty, shade, and for fruit maturing over a long period. 4 to 6 ft., well branched. Postpaid, only. **\$3.75**

STANDARD CHERRY

4 to 6 ft., 2-yr. Cherries.	1 to 6 each	7 or more each
	\$2.90	\$2.50
	Postpaid	Exp. Coll.

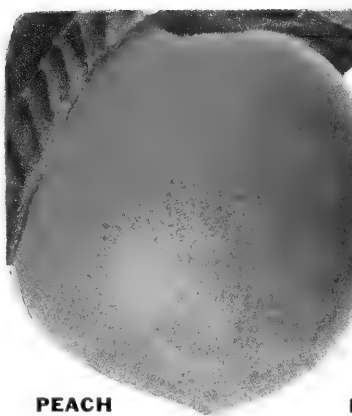

SOUR CHERRY

➤ **LARGE MONTMORENCY.** Good bearer. Bright clear red, good size, fine flavor. Eat right off the tree. Makes excellent pies and other desserts. Ripens July 15.

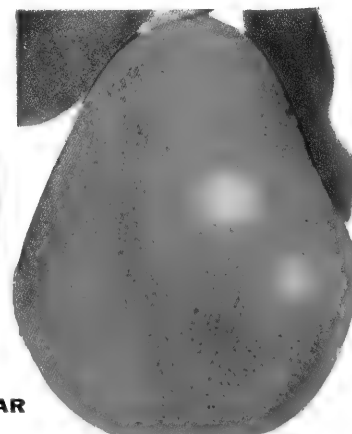

SWEET CHERRIES

Two or more Sweet Cherries must be planted for pollination.

- **BLACK TARTARIAN.** Purplish black. Juicy; rich flavor.
- **NAPOLEON.** Yellow. Flesh firm; flavor rich and sweet.
- **WINDSOR.** Pinkish flesh; almost black skin. Large, juicy, firm.

ENGLISH IVY — One of the very best EVERGREEN CLIMBING VINES and GROUND COVERS. Popular close clinging vine. Rich, dark green, glossy, three-lobed leaves make dense covering especially on brick or stone walls. Thrives in any good soil and under smoky city conditions. Is evergreen the year 'round. For walls, fences, etc. Especially desirable beneath shrubbery.

PACHYSANDRA — Excellent in masses under heavy shade of trees. A dense, lustrous evergreen, trailing vine type of ground cover. It thrives under evergreens or anywhere. If planted 8 to 12 inches apart it will give a pleasing effect immediately and in two years' time forms a solid ground cover. Prefers shade; any soil, water liberally. It is **VERY HARDY**. Grows 6 to 8 inches tall. Fine for terraces or any place where grass is not successful.

Many items of larger stock are available balled and burlapped, for pick-up at the Musser Nursery during the packing and shipping season.
